- Dedicated, one-on-one coaching
- Face-to-face social / emotional support
- 24/7 on-demand tutoring
- Students graduate from local school district
- Post-secondary college & career counseling

When a student drops out of school, the impact is significant — this unfortunate and often unavoidable decision has a ripple effect on families, communities, and the schools that these students leave behind. Helping them back, however, is no easy task, requiring extensive resources to track them down and place them on an alternative pathway to success. Graduation Alliance partners with school districts across the nation to re-engage former students, while minimizing the burden felt by schools leaders.

Multiple Pathways to Success

- **High School Diploma** (issued by your district)
- **Career-Ready Life Skills**
 - Employability Skills align to DOL's Skills to Pay the Bills
 - Financial Literacy Skills
 - Digital Literacy Skills
- **Industry Credentials**
 - Certified Caregiver
 - NCCER Core (Skilled Trades)
 - Certified Logistics Associate
 - Certified Production Technician
 - OSHA 10 Workplace Safety
- **GED**

Sustainable Funding

A partnership with Graduation Alliance results in minimal impact on district resources. Our dropout recovery programs are often completely cost-neutral. Each program is built on a pay-for-performance model based on previously defined academic goals with absolutely no startup costs, virtually eliminating the financial risk of launching a new program.
